Program using conditional statement

```
print("^^^^^ Welcome to 50 Bucks ^^^^^")
food=input("Order your food ")
if food=="Burger" or food=="Pizza" or food=="Puttu Ice Cream" or food=="Shawarma"
:
    print("Have your delicious food")
else:
    print("Sorry, the food you have ordered is not available")
```

Output :

```
PS D:\Python> & C:/Users/admin/AppData/Local/Programs/Python/Python311/python.exe d:/Python/if.py
^^^^^ Welcome to 50 Bucks ^^^^^
Order your food Burger
Have your delicious food
PS D:\Python> & C:/Users/admin/AppData/Local/Programs/Python/Python311/python.exe d:/Python/if.py
^^^^^ Welcome to 50 Bucks ^^^^^
Order your food Meal
Sorry, the food you have ordered is not available
PS D:\Python>
```
